

1/2" ~ 4"**TUBOR**

WP-100A

Pipe Threading Machine

Design Features

- Powerful induction motor in 900W or 1100W for choices, full-size threading in one operation.
- Self-opening die head, combined with a wedge-type contour retraction system, automatically controls thread length, providing precise and straight tapering.
- The 20mm thick die achieves a high threading speed with low energy consumption.
- The heavy-duty gearbox design with fully hardened gears ensures reliable structure and extends the machine's service life.
- Automatic lubrication with adjustable oil flow ensures continuous lubrication of the die and workpiece through head lubrication, prolonging the die's service life.

Specifications

- Fabrication Capacity: 1/2"-4" BSPT/NPT
- No Load Speed: 10/22 R.P.M.
- Gross Weight: 145 kgs
- Packing Size: 100 × 61 × 61 cm

Drive Unit

Catalog No.	Phase	Power	Voltage	Frequency
S620490	Single	900W	220V	50/60Hz
S620500	Single	900W	110V	50/60Hz
S620510	Single	1100W	220V	50/60Hz
S620520	Single	1100W	110V	50/60Hz

Standard

Catalog No.	Description	Ref No.
S620233	Automatic die head 1/2"-2"	①
S620240	Automatic die head 2 1/2"-4"	②
S620235	Alloy dies 1/2"-3/4"	③
S620236	Alloy dies 1"-2"	③
S620241	Alloy dies 2 1/2"-4"	③
S620242	Pipe reamer	
S620243	Pipe cutter	

Optional

Catalog No.	Description	Ref No.
S620244	HSS dies 1/2"-3/4"	③
S620245	HSS dies 1"-2"	③
S620247	HSS dies 2 1/2"-4"	③
S620217	Foot Peddle	④
